

Roger Fugate – Statement Date Unknown

Roger Fugate came into this case so late that he isn't even mentioned in the 1-74 report. His story was put together in such a way, that there isn't an easy way to check it out. Roger gave a statement that he attended a party and overheard Billy tell "some people" that "yeah, I killed Lisa and if you tell, you'll get the same".

He could not say who was in the room with Billy. He could not recall anyone else but Billy at the party. He could not recall whose party it was, where it was at, or even how he got there! Selective memory once again – sound familiar?
