

Affidavit for Mr. Scott

Mr. Scott,

On August 25, 1991, Preble County Sheriff Larry Swainheart and one other Deputy Sheriff tried to make a deal with me on drug trafficking against Carry Brown. They drove to the upper peninsula of Michigan to make this deal. About ninety percent of their conversation was about Billy Scott and a murder trial that was coming up. Billy Scott had been arrested for this murder. Larry Swainheart told me that Billy was arrested for this and that they had no evidence against him but they said he was guilty of the crime. The deal they tried to make with me was if I testified against him then I would not serve time in Prison. I knew nothing of the case and refused to do it. I have known Billy Scott all my life and I know he did not commit the crime.
